DAV BR PUBLIC SCHOOL, BINA SESSION 2024-25

Half Yearly Examination/ Periodic Test 2 PRACTICE PAPER

Class: V Subject: Science

Time Allowed: 2hrs MM: 50

Q.No.	QUESTIONS Fill in the blanks:		MARKS
1	Fill in the blanks: - The main product obtained f	1	
	paper is		
2	The illegal buying and selling trade.	1	
3 4	A is any defect or a Micro-organisms like bacteri	1 1	
5 6	State True if the statement is correct and False if incorrect. Chicken pox is a non-communicable disease. Humans are destroying habitat of animals by controlling wildlife		1
J	trade.	-	
7	Vinegar is used as preservative.		1
8	Amla leaves are used for making disposable plates.		1
	Match the following		
9	Bald eagle	Perishable food	1
10	Resins	Lack of Iron	1
11	Anaemia	Rules the sky	1
12	Milk	Adhesive	1
	Choose the correct option: -		
13	How does refrigeration help in preserving food?		1
	a) It kills microorganisms		
	b) It slows down the growth of		
	c) It changes the taste of food		
	d) It adds nutrients to the fo	bo	
14	What is the role of trees in a forest?		1
	a) Produce oxygen	b) Provide shelter to animals	
	c) Prevent soil erosion	d) All of the above	
SP / V	/ Science		Page 1 of 2

15	Which nutrient is essential for strong bones and teeth?		
	a) Iron b) Calc	ium	
	c) Protein d) Iodin	ne	
16	In a food chain, what would happen if all the plants disappeared?		
	a) Herbivores would increase in number		1
	b) Carnivores would become producers		
	c) All organisms in the chain would be aff	ected	
	d) Nothing would happen		
	Name the following: -		
17	Animal that eats bamboo leaves to grow, a	also in logo of WWF.	1
18	±	<u> </u>	1
19	and then rapidly cooled to destroy bacteri A disease caused by a deficiency of vitami		1
20	such as bleeding gums and weakness.	omes from the nector of	1
20	This sweet substance produced by bees conforest flowers.	onies from the nectar of	1
21	Short Answer Type Questions State two factors that contribute to the fa	st growth of	2
4 1	microorganisms.		4
22	How are human beings destroying the natanimals?	tural surroundings of wild	2
23		preserving food?	2
24	Name the part of the body for which follow	ving animals hunted by	2
	man. i)elephant ii) rhinoceroses iii) North An	nerican bear iv) tiger	
25	What do you mean by symptoms? Write the blindness.	he symptom(s) night	2
26	What is the average temperature and ann	ual rainfall needed for a	2
	forest to develop?		
	Long Answer Type Questions		
27	Why are deficiency diseases called non- co	ommunicable diseases?	3
28	Give two examples. State two methods in which food preserva	ation is useful to us.	3
	Explain any one method in short.		
29 30			3 3
30	a) Name the disease he might be suffering	g from.	3
	b) Is it communicable or non-communicated to the can the person prevent from this can be can		
31	Should we eat food giving out foul smell?		3
32	spoilage of food. What is deforestation? List two harmful expressions are specified by the spoilage of food.	ffects of deforestation	3
34	What is actorestation; Dist two namiful C.	nicets of actorestation.	J
