

SEWA ACTIVITIES-2025

SEWA (Social Empowerment through Work Education and Action)

SEWA aims at developing a wholesome. Development in intellectual, personal, social, emotional and social aspects is the sole aim of SEWA Club. Children engaged in this program are expected to be life-long learners. Through experiential learning, they develop into active, caring and compassionate humans. The experiential and constructive modes of learning emphasize the immediate personal experience of the learner and view learning as a life-long process.

SEWA takes learning beyond the walls of the classroom and even beyond the boundaries of the school by co-relating the authentic and the real world in meaningful and positive ways.

Main objective of SEWA is to foster strong mental and social health amongst today's children so that they can connect with their peer, their elders, the community, the environment, etc. Another main aim of the SEWA Projects is to direct children's mind to constructive activities with positive outcomes through the facilitation of creative and critical thinking, which would help them to develop self-confidence and self-esteem.
